

Brain Fucker (Hong Kong Style)

There is a very popular cocktail around called the "Brain Fucker". It's a strong and somewhat infamous drink, typically served as a shooter.

Ingredients

- 1 part Vodka
- 1 part Peach Schnapps
- 1 part Baileys Irish Cream
- A few drops of Grenadine (optional, for blood-red effect)

Equipment

- Shot glass (or small tumbler for dramatic effect)
- Bar spoon (for layering)

Method

1. **Chill the glass**
Place the shot glass in the freezer or fill it with ice water for a minute, then empty it. A cold glass keeps the layers crisp.
2. **First layer: Vodka**
Pour vodka into the shot glass until it's about one-third full.
3. **Second layer: Peach Schnapps**
Using the back of a bar spoon, slowly pour peach schnapps over the vodka. This helps create a clean separation.
4. **Third layer: Baileys Irish Cream**
Gently layer Baileys on top in the same way. As it hits the schnapps, it will curdle slightly, creating the infamous "brain" effect.
5. **Optional gore: Grenadine**
Drop in a few drops of grenadine. It will sink through the layers, leaving bloody streaks through the "brain."
6. **Serve immediately**
This drink's meant to be knocked back in one.

Notes

- For a more dramatic brain texture, drizzle the Baileys in slowly rather than pouring in one go.
- If you want a sweeter profile, swap the vodka for triple sec or coconut rum (a popular variation in Hong Kong bars).
- Be cautious with this drink, as it's potent!
